

NETGATE 4200 MAX

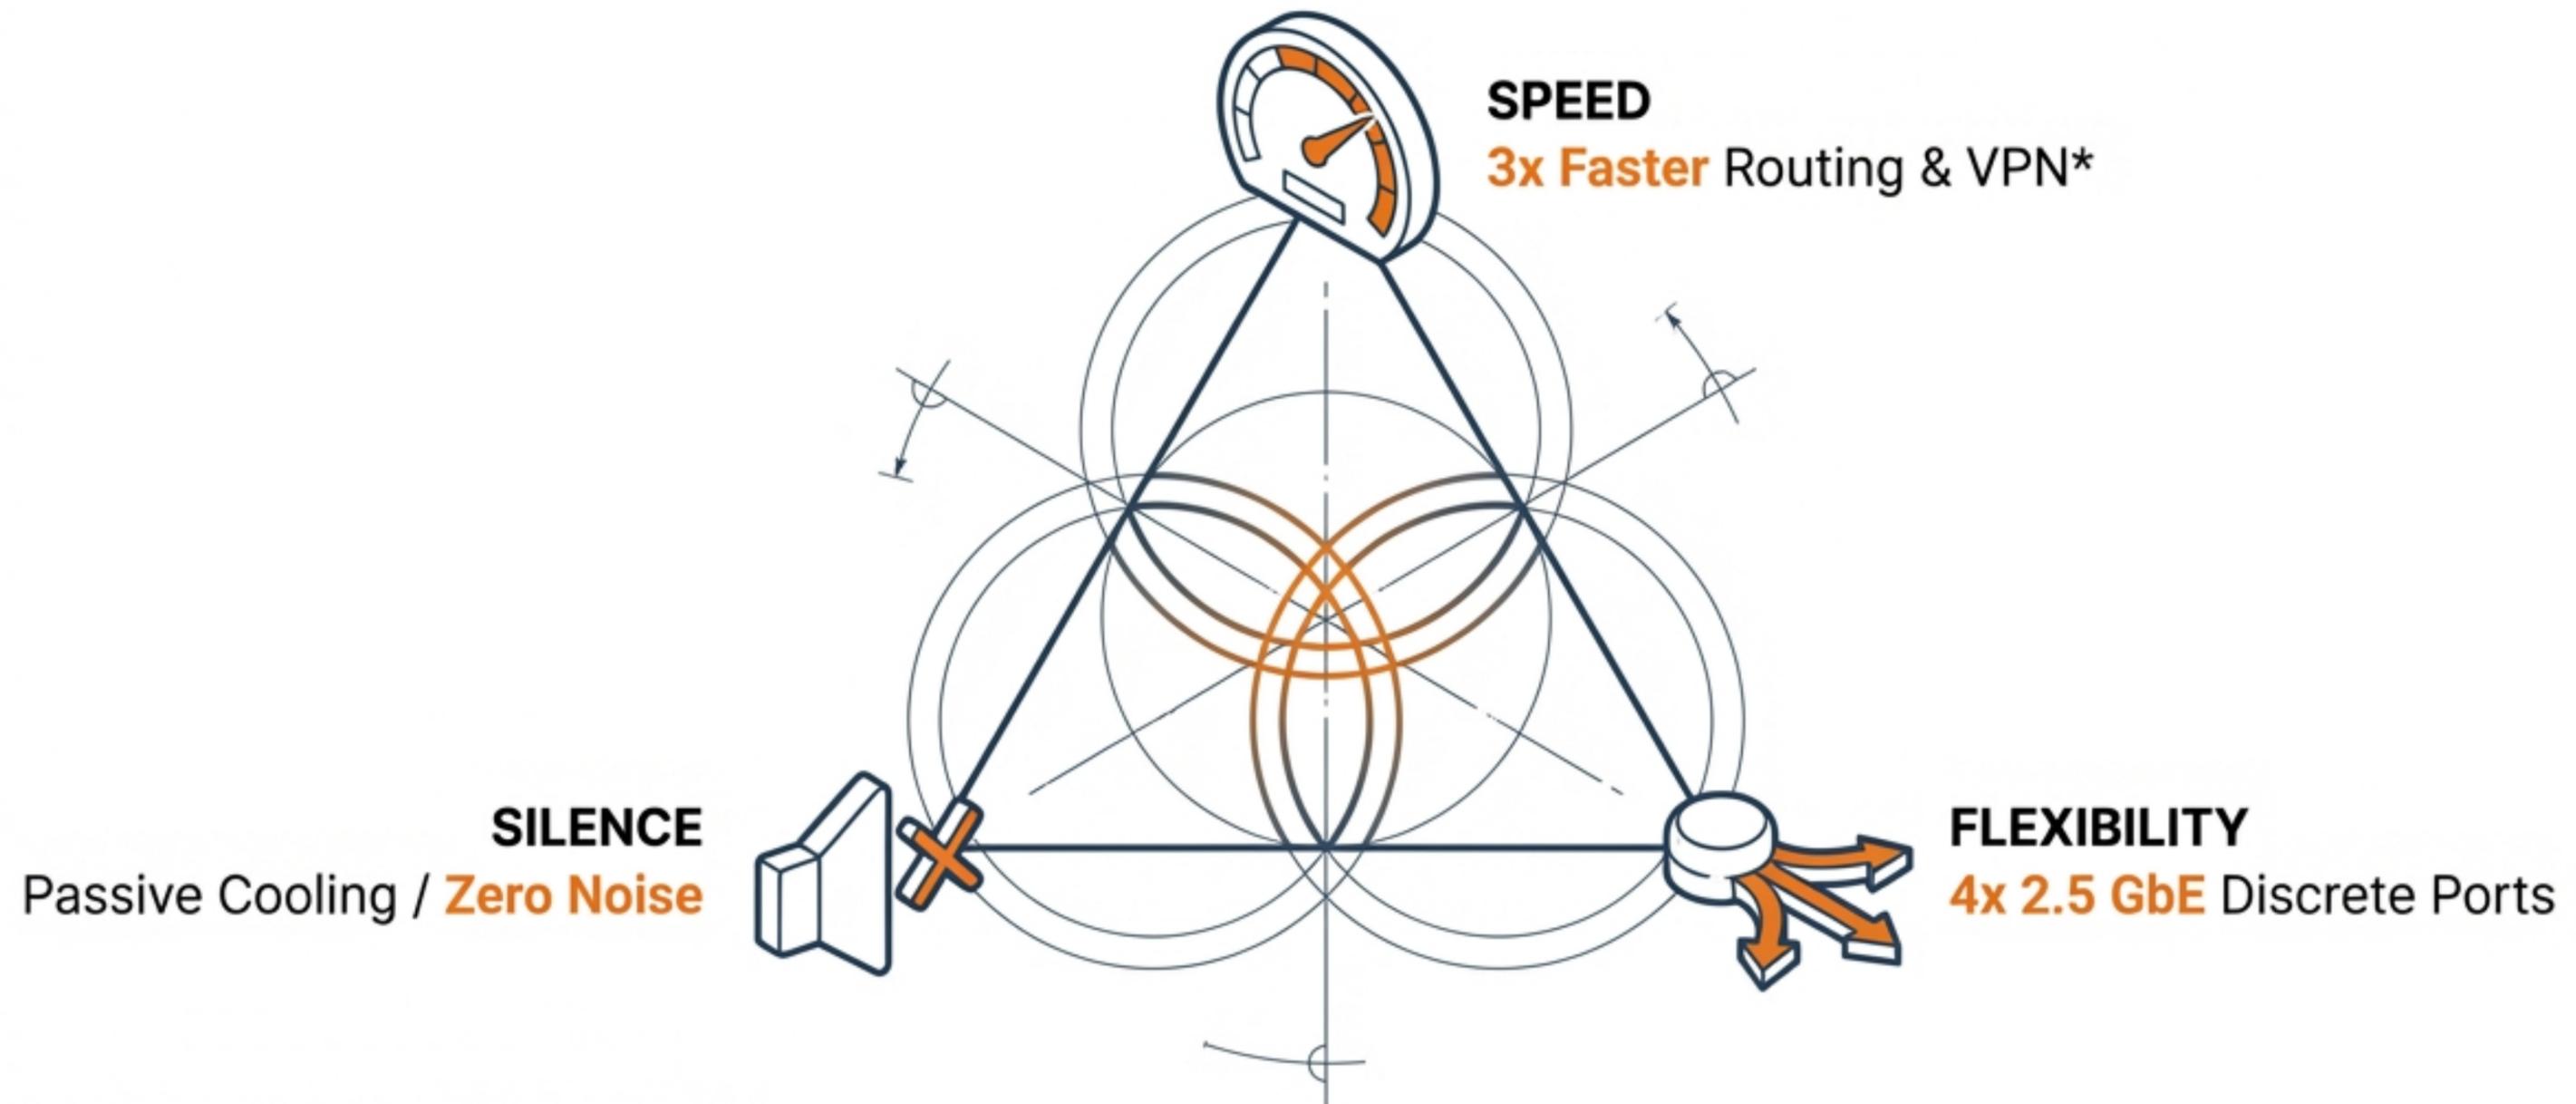

The New Standard in Versatile Performance.

Powered by pfSense® Plus Software

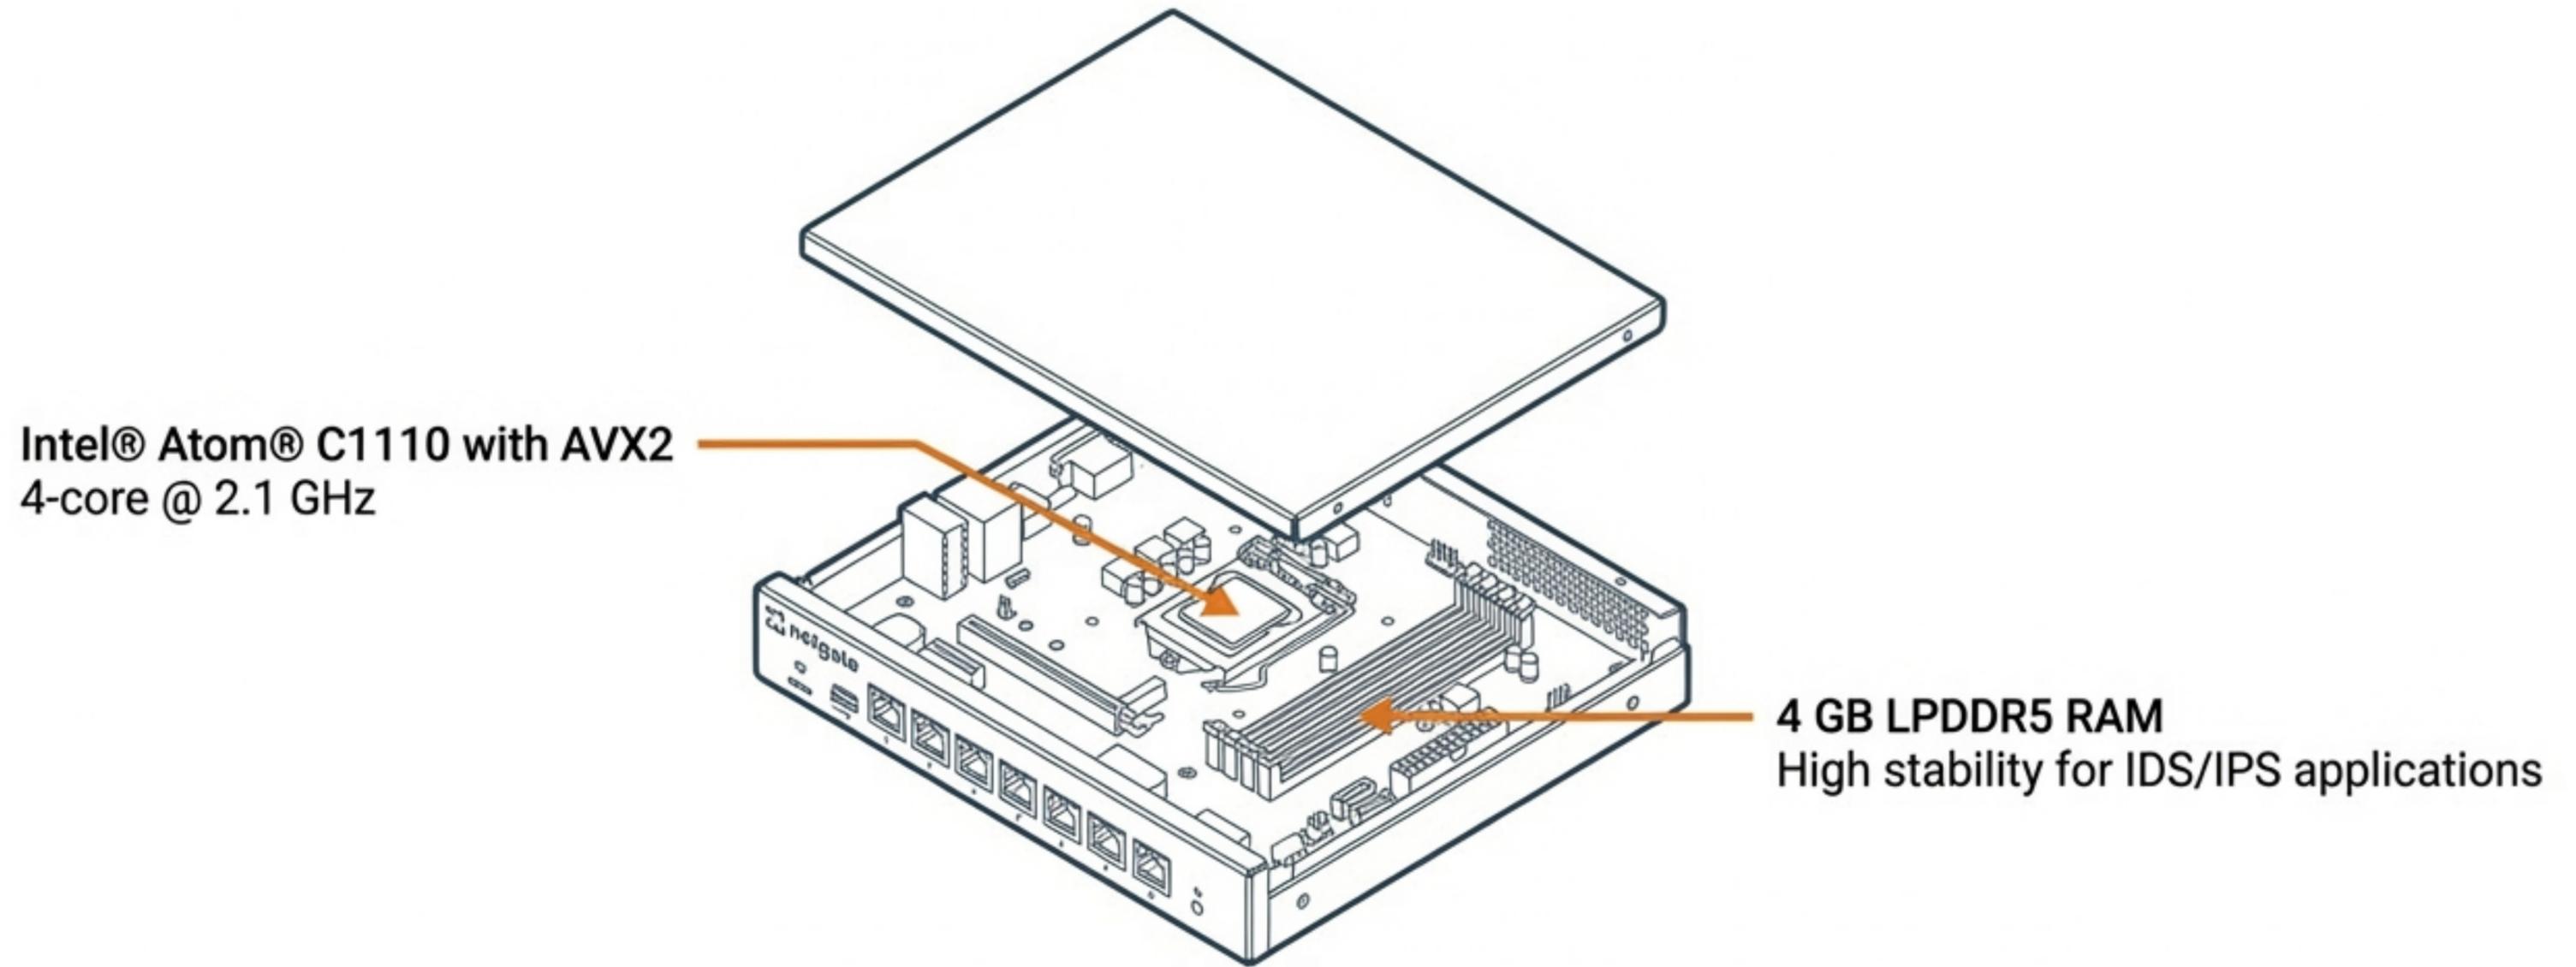

The Intersection of Speed, Silence, and Flexibility.

The most versatile security gateway in its class, bridging the gap between enterprise power and desktop accessibility.

*Compared to previous generation Netgate 4100.

Engineered for Throughput.

Performance begins with the silicon. The C1110 architecture delivers efficient processing power while DDR5 memory ensures high transfer rates for memory-intensive security tasks.

Benchmarking the Upgrade.

L3 Forwarding (Router)

Netgate 4200

9.28 Gbps (IMIX) / 8.75 Gbps (IPERF3)

Previous Gen

Firewall (10k ACLs)
